

Usually wear sizes 12-16? Compare your body measurements to both the 00 -16 size range and 12 -26 size range body measurements, then choose the best fit for your figure.

How to choose a size: Compare your full bust and under bust measurements to the body measurements in the charts below. If those measurements fall into different sizes, use the smaller size and alter the pattern for the other measurement.

If you need to alter the under bust, you will need to recalculate the bottom band measurement. To do this, for sizes 00-16 subtract 7" (17.8 cm) from your under bust measurement. For sizes 12-26, subtract 11" (28 cm) from your under bust measurement.

Before cutting, wrap that length of elastic around your under bust, leaving a 1/2" - 1" (13 mm - 2.5 cm) space to accommodate the bra clasp, and check for comfort.
